PROFILE

Detail-oriented Full Stack Web Developer with hands-on experience building responsive, user-friendly applications. Skilled in designing intuitive user interfaces, integrating third-party services, and maintaining clean, scalable code. Known for strong communication and collaboration abilities, with a proven track record of adaptability, critical thinking, and delivering efficient solutions in dynamic team environments.

TECHNICAL SKILLS

Programming Languages: HTML, CSS, TypeScript, JavaScript, Python, C#, Java, PHP
Frameworks and Libraries: Next.js, React.js, React Native, Node.js, .NET, Laravel, Tailwind CSS
Design & Tools: Figma, Webflow, Git, GitHub, Bitbucket
Database: MySQL, MongoDB, PostgreSQL
Other: RESTful API Integration & Development, Third-Party Integration

SOFT SKILLS

Strong Communication • Team Collaboration • Adaptability • Problem-Solving • Critical Thinking • Time Management

EDUCATION

Bachelor of Science in Information Technology
Camarines Sur Polytechnic Colleges
August 2021 – July 2025

ICT in Mobile App and Web Development
STI College Naga
August 2019 – March 2021

WORK EXPERIENCE

Full Stack Developer   **Appnado IT Solutions • June 2025 – Present**
- Developed and scaled a management system from barangay to multi-municipality level using React, Vite, Go, Tailwind CSS, and SQL.
- Contributed to Appnado IT Solutions, a growing startup, by building efficient, scalable web solutions that streamlined local government operations.

Full Stack Web Developer Intern   **Pru Life UK • March – June 2025**
Live Site: https://pru-lydes.vercel.app/
- Developed a fully responsive professional profile website using Next.js and Tailwind CSS, with a clean, brand-consistent UI designed in Figma.
- Integrated Calendly for appointment scheduling and Web3Forms for seamless email inquiries.
- Deployed the project via Vercel, managing domain setup and ensuring full mobile responsiveness.

Freelance Full Stack Developer   **Freelance • November 2023 – Present**
- Developed responsive web applications using React.js, Next.js, Tailwind CSS, Python/Django, PHP (Laravel, CodeIgniter), and JavaScript, ensuring modern UI and performance optimization.
- Built and integrated RESTful APIs with MySQL, MongoDB, and Firebase for secure data handling across projects such as e-commerce platforms, portfolio sites, and inventory management systems.

PROJECTS

Learning Management System
- Developed a full-stack Learning Management System (LMS) using Next.js, TypeScript, and Supabase, enabling instructors to manage courses and upload learning materials while allowing students to access and enroll in courses seamlessly.

Fingerprint Door Lock and RFID Attendance Tracking for IT Laboratory 1
An access control and attendance tracking system for IT Lab 1 to enhance security and automate logging.
- Integrated AS608 Fingerprint Scanner (faculty) and ACR122U RFID Scanner (students) in Raspberry Pi and other IoT.
- Developed using Python (Tkinter) and C# (WinForms).
- Used a custom RESTful API to handle data operations (GET, PUT, DELETE) between fingerprint and RFID modules.

Portfolio Website
- Designed and developed a personal portfolio using React, Next.js, and Tailwind CSS.
- Implemented a responsive, modern UI and deployed on Vercel for production hosting

COURSES

Foundation of Web Development: CSS, Bootstrap, JavaScript, React (Udemy)
Covered modern front-end development fundamentals and React component design.

Understanding by Creating Simple React App from Scratch (Udemy)
Built high-performance React apps with Vite and Chakra UI.
